Payback on the sample above

STEP	CALCULATION	RESULT
Midpoint investment	Average of the range above	2,000,000
Year 1 net	$123,500 \times 12$	1,482,000
3-year net	$(123,500 + 167,700 + 202,500) \times 12$	5,924,400
Simple payback	$2,000,000 \div 1,482,000$	~16 months

Payback is shown before income tax, financing cost and lease deposits, and it assumes the outlet reaches the sample sales level. Actual results depend on location, foot traffic, pricing and operating discipline.
